Professional Summary

Aspiring Junior Developer with a B.E. in Computer Science (2024) and expertise in web development and UI/UX design. Proficient in Java, Python, HTML, CSS, and JavaScript. Demonstrated skills in building deep learning models and web applications through internships and projects

Skills

- Web Development: HTML, CSS, JavaScript, WordPress
- Programming: Java, Python, JDBC, Servlets, JSP
- UI/UX Design: Figma, Prototyping
- Technical Skills: Basics of Networking and Hardware, Linux, Basic Troubleshooting and Diagnostic Skills
- Software Development Life Cycle (SDLC)
- Team Collaboration, Problem-Solving, Time Management

Education

B.E. in Computer Science & Engineering	2021 – 2024
Priyadarshini Engineering College, Vaniyambadi	CGPA: 7.90
Diploma in Computer Engineering	2018 – 2021
K.A.R Polytechnic College, Ambur	CGPA: 8.60
12 TH	2018
Islamiah Boys Higher Secondary School, Vaniyambadi	63%
10 TH	2015
T.V.K.V. High School, Vaniyambadi	66%

Work Experience

Web Development Intern   Aug 2024 – Sep 2024

OctaNet Services Pvt Ltd, Remote

- Developed 3 responsive web applications using HTML, CSS, and JavaScript, improving user engagement by 15%.
- Collaborated with a team of 5 developers to implement UI/UX designs, reducing page load time by 10%.
- Debugged and optimized code, enhancing application performance and user experience.

Academic Projects

Kidney Stone Detection Using Deep Learning   2023 – 2024

- Built a deep learning model with TensorFlow to detect kidney stones from medical images, achieving 92% accuracy.
- Preprocessed datasets using Python and NumPy, improving model training efficiency by 20%.
- Presented findings to faculty, earning the top project award in the department.

Crime Vision: Advanced Crime Classification   2023

- Developed a crime classification system using deep learning, processing 10,000+ data points with 90% accuracy.
- Utilized Python, TensorFlow, and Pandas for feature extraction and model training.

Student Information Management System   2021

- Designed a web-based system using ASP.NET and MySQL to manage 500+ student records.
- Created a user-friendly UI, reducing data retrieval time by 25%.

Certifications

- Java Programming, Besant Technologies, Nov 2023
- Python Programming, Nasscom FutureSkills Prime, Nov 2024
- Full Stack with Python & JavaScript, Guvi, 2024
- UI/UX Design, Udemy, 2024
- AR/VR Development, InGage, 2024
- Web Development Internship, OctaNet, Sep 2024
